Read Me.

What's included in the download...

SeedCode Complete: our latest calendar, including contact, project, and invoicing components for you to modify and extend. *Note that you can not edit the layouts, fields, and scripts of this demo as you can with the purchased version.*

Extras: other files to help your get the most out of the calendar, including iCalXML, RSSXML, and vCardXML which are used for exporting iCal and vCard files from the calendar, and for subscribing to the calendar over RSS. See the built in documentation for notes and instructions on using these features.

Getting Started...

Opening SeedCode Complete: when you open SeedCodeComplete.fp7 you'll see a short introduction and a link to our Quick Start that will help you get going with the calendar.

Documentation: the Quick Start is actually part of our built in documentation; click on the topics tab to browse additional articles of interest or visit docs.seedcode.com

About the Demo: this demo will expire 10 days after first launch. If you need more time to check out the file you can download a fresh copy as often as you like. Note that data entered into the demo can not be retrieved and will need to be re-entered into the purchased version.
